

# SONY 91-92

## DAT

For over four years, Sony has supplied recording industry professionals with Digital Audio Tape (DAT) recording technology. Conceived as the eventual replacement for the familiar audio cassette, DAT's extraordinary combination of sound quality, compactness, reliability and ease of use has made it the professional choice for stereo audio recording. And with the launch last year of the acclaimed DTC-55ES hi-fi separate, Sony finally made the benefits of DAT available to a wider audience.

### TCD D3 DAT 'WALKMAN'

Now, Sony offers the ultimate experience in personal digital audio: the DAT 'Walkman'. The revolutionary TCD-D3 lets you record and play back up to four hours of uninterrupted digital audio on a metal-particle tape smaller than an ordinary cassette, and a range of sophisticated music search functions brings CD-style access to your digital recordings.

The rotary recording head system — adapted from video recording technology — assures flawless audio performance even when you are on the move, and, like other high-performance 'Walkman models', the TCD-D3 can be easily integrated into your home hi-fi or in-car system.

## DAT ACCESSORIES

### TCD-D3

*Extremely Compact Size Digital Recording System · Four Hour Continuous Recording · Rechargeable Battery and AC Power Adaptor/Charger Supplied · Optical Connecting Cord Supplied · Microphone/Line Direct Input · Back-Illuminated LCD · 100 Times AMS · Two Speed Cue/Review, Three Times, 25 Times · Multimode Start ID · Linear Counter*

### CPM D3

*Car mount arm for TCD D3*

### DAT CASSETTE

*For the Finest Performance required in Digital Sound Audio Tape Recording · Improved Head Tracking and Dropout, Whilst providing Long Lasting Durability · 60/90/120 mins*

*Featured alongside DAT 'Walkman' — ECM S220 — One Point stereo microphone with excellent frequency response. Powered by the TCD-D3 through DC out jack. Voice, wind, and sensitivity filters built in. Wind Screen supplied.*

## 'WALKMAN'

Only Sony gives you total freedom to choose from a breathtaking array of innovative features and imaginative designs to complement your own listening requirements and lifestyle.

All 'Walkman' models are supplied with headphones that provide an ideal match for each player's specifications, but you can always choose from a wide range of headphones to suit your own fashion and listening tastes.

**Anti-rolling Mechanism:** Ensures that tape speed remains stable even when the 'Walkman' and its owner are moving around.

**Auto Shut-Off:** Battery power is preserved, even when you forget to turn the unit off. On some models this includes FF and REW modes as well as PLAY.

**'Dolby B' Noise Reduction:** Manufactured under license from Dolby Laboratories, the 'Dolby B' Noise Reduction system combats tape hiss.

**Mega Bass:** Boosts bass frequencies to deliver added depth to your musical pleasure. 'High Specification' Mega Bass boosts bass frequencies only when a musical signal is present, thus reducing background noise.

## SUPER 'WALKMAN'

For those who demand superior 'Walkman' performance, state of the art Super 'Walkman' models combine refined circuitry with sophisticated features and ultra-slim styling. All Super 'Walkman' designs feature Auto Reverse, High Specification Mega Bass and 'Dolby B' Noise Reduction as standard.

**Function Mode Indicator:** An LCD display on the unit's front panel or remote control unit indicates the current tape mode (PLAY, FF or REW).

**Ex-Amorphous Head:** Provides a wider dynamic range and extended record/playback frequency response.

**Remote Control:** On selected 'Walkman' models, function control is provided from a small module located on the headphone lead.

## SPORTS

With eye-catching looks that have won it widespread design acclaim, the Sony Sports 'Walkman' range is unmistakable. But Sports 'Walkman' is no mere design statement: it's equipped with the same practical features that have made the Sony name synonymous

with go-anywhere personal entertainment. With its tough splash-proof, snow-proof and sand-resistant casing, Sports 'Walkman' lets you take your music where other personal stereos fear to tread.

WATCHMAN

## 'DISCMAN'

There can be no better demonstration of the Sony position as the world leader in personal digital audio than the impeccably styled 'Discman' range.

The flagship D Z555 with its wealth of top specification features and Digital Signal Processing circuitry permits ultimate control over the creation of powerful listening effects. Other models in the range feature Mega Bass, new-generation 1-bit D/A conversion, digital preset tuning, sophisticated track search facilities, headphone remote control and dual-damper anti-shock circuitry. An optional in-car adaptor kit lets you take 'Discman' on the road, while other accessories can enhance the 'Discman' experience still further - from remote commanders and active speakers to rechargeable battery packs and car connecting kits.

**Introscon:** An ideal means of auditioning a disc's contents - a few seconds are played from the beginning of each track.

**Oversampling:** As part of the digital to analogue conversion process, oversampling pushes unwanted high-frequency information far beyond the reach of human hearing.

**Automatic Music Sensor (AMS):** Permits easy one-touch location of the beginning of the current or the next track.

**Random Music Sensor (RMS):** Tracks may be programmed to play in any order.

**Index Search:** Symphonies and other orchestral works frequently do not have convenient breaks in the programme. Index Search allows long programmes to be indexed into sections for easy location of a desired point.

**Shuffle Play:** Plays tracks in completely random order.

**Repeat:** Can be applied to the whole disc, individual tracks or programmed sections.

**Fade/Time Fade:** A track can be smoothly faded in or out. Time Fade allows the fade to occur at any designated time during the track.

**Auto Space:** Inserts a four-second pause between selections.

**Auto Edit:** Invaluable when taping from CD onto cassette, auto edit can automatically programme track selections to fit within a tape's duration to avoid tape running out half way through a track.

**Digital Sound Processing:** The D Z555 can add any of four separate effects: Digital Bass Boost adds depth and power by extending low frequencies; Digital Dynamic Sound provides a more powerful sound when listening at low volume levels; Digital Surround Sound adds an atmospheric 'all-round' presence when listening through headphones; the Digital Graphic Equalizer splits each audio channel into five bands that can be individually boosted or cut. All effects can be demonstrated using the Sound Demonstration function.

**1-bit Digital to Analogue Converter (DAC):** A new low-distortion pulse-type converter that solves many of the problems associated with conventional conversion systems.

**Digital Tuning:** The D T66 features a digital synthesized tuner section, allowing stable reception of radio stations at the touch of a button.

## RADIO CASSETTE

The Sony Radio Cassette range is bigger than ever - from compact, stylish units for the kitchen or bedroom through to the mighty CFS 1030L, with 2-way detachable bass reflex speakers for unbelievable music power. Just choose the model that suits your needs and tastes.

**Auto Reverse:** Instantly reverses tape direction for continuous music.  
**Graphic Equalizer:** Splits the audio spectrum into a number of separate bands that may be individually boosted or cut, thus offering more precise tonal control than with simple tone controls.  
**Space Sound:** An electronic sound processing effect that gives a wide 'surround sound' impression, making the speakers appear to be positioned further apart.  
**EIAJ:** The power output rating as specified by the Electronic Industries Association of Japan.

## TWIN DECK RADIO CASSETTE

All Sony twin-deck radio cassette players feature 2-speed synchronised dubbing allowing you to record from one deck to the other at either normal or high-speed. Other designs feature the legendary Mega Bass system, Space Sound and detachable speakers. The CD line-in socket on certain models allows you to connect your Sony radio cassette to either a 'Discman' or full-size CD player to create an integrated home entertainment system.

**Digital Tuning:** Digitally synthesised tuning allows different stations to be selected at the touch of a button, and guarantees stable signal reception.

**Mega Bass:** The unique Sony Mega Bass system boosts the bass frequency to deliver added depth to your musical pleasure.

## RADIO CASSETTE WITH COMPACT DISC

Combining the clarity of CD together with cassette and tuner sources in a single compact package, the Sony CFD Series provides the ideal answer to the needs of the most sophisticated music lover. In order to faithfully reproduce the true musical dynamics that only digital sound sources can deliver, Sony has taken care to ensure that all CFD series models have ample reserves of power: the mighty CFD 770L with Mega Bass and detachable speakers delivers up to 20 watts of powerful digital sound.

**Table of Contents:** Track information can be shown on the LCD display.  
**Introscan:** A convenient means of auditioning the contents of a CD, Introscan plays the first few seconds of each track.  
**Shuffle Play:** Tracks are replayed in completely random order.  
**Automatic Music Sensor (AMS):** Permits easy one-touch location of the beginning of the current or the next track.  
**Random Music Sensor (RMS):** Tracks may be programmed to play in any order.  
**CCCR System:** The Common Cavity Common Resonance system delivers a powerful, full-bodied bass sound from a compact speaker system.  
**CD High-Speed Dubbing:** Some CD radio cassette models permit recording from CD to tape at twice normal speed.

**■ CFD-55L**

## TAPE RECORDERS

Whether you're looking for a simple electronic note-taker, or perhaps something with a full complement of convenient functions, you can be sure that Sony has the right tape recorder for you. Easy-to-operate designs that include useful facilities like one-touch recording and a tape counter. Sophisticated models with Voice Operated Recording and a Time Index function that lets you keep track of exactly when your recordings were made. High performance recorders that allow you to capture live music in stereo with sparkling quality. Sony also offers a choice of sleek, slimline micro-tape recorders that can be slipped unobtrusively into a coat pocket or briefcase for ultimate portability. Some models feature AC adaptors or rechargeable batteries for extra versatility, and further accessories including microphones and car battery cords are also available.

**Time Index Recording:** Year, month, date and time information may be recorded automatically on tape for reference purposes and displayed on the recorder's LCD display.

**'Dolby B' Noise Reduction:** Reduces Tape Hiss.

**Amorphous Head:** Provides wider dynamic range and an extended record/playback frequency response.

**Cue Marker:** Inserts a signal on tape that can be used to locate a particular point in a recording.

**Built-In Flat Microphone:** Offers excellent sound quality from an extremely slimline microphone design.

**One Touch Recording:** Allows recording to be started by depressing just one button.

**VOR (Voice Operated Recording):** Momentarily halts recording between passages of speech. This not only provides tape economy, but makes recordings more simple to follow on playback.

**Speed Control:** Permits a choice of recording speeds.

**Front Speaker:** Allows instant and convenient playback of recorded information.

## COMPACT CASSETTE

HIGH SPECIFICATION MICRO TAPE RECORDER  
VCR - Combined Earphone and Microphone - Supplied Remote Controller with Built-in Microphone - Tape Counter - One Touch Recording - Built-in Speaker - Cue & Review - All in One Socket for Microphone/Earphone/Remote - Black Finish - Power: 2 x DM4 size battery, 3xDC

## BUSINESS AND PERSONAL MICROPHONES

**ECM T10**  
Tie Pin Style - Omni-Directional - Frequency Response 50-15,000 Hz - Mini Plug - Weight Approx 14g - For Business/Personal Use

**ECM 011**  
Tie Pin Style Electret Condenser Microphone - Omni-Directional - Frequency Response 50-15,000 Hz - On/Off Switch - Mini Plug - Weight Approx 15g - Battery Supplied - For Business/Reporting/Personal Use

**ECM 121**  
Tie Pin Style Stereo Electret Condenser Microphone - Uni-Directional (Stereo) - Omni-Directional (Mono) - Frequency Response 100-15,000 Hz - On/Off Switch - Control Box for Tape Recorder with 'Ordinary Mic Input' or Without if Tape Recorder has 'Power Mic Input' - Mini Plug - Weight of Microphone Approx 16g - Weight of Control Box Approx 30g - Battery Supplied - Business/Meetings/Interviews/Personal and Semi-Professional Use

**ECM 202**  
Box Style Electret Condenser Stereo Microphone - Uni-Directional - Mono/Stereo Switch - Frequency Response 200-15,000 Hz - Mini-Plug - Weight Approx 52g - Supplied with Battery - Business/Personal Use

**ECM 101SM**  
Electret Condenser Stereo Microphone - Direct Plug-in (no cord) with Shock Mount - Uni-Directional - Frequency Response 100-15,000 Hz - Mini Plug - Weight Approx 52g - Supplied Soft Case and Battery

**ECM 909**  
High Quality Stereo Electret Condenser Microphone - Power/Direction Angle Switch - Frequency Response 100-15,000 Hz - Mini Plug - Weight Approx 90g - Supplied Windscreen/Carrying case/stand adaptor and Battery - Business/Interviews / Concerts / Semi-Professional Use

**ECM R100**  
Noise Reduction System - Electret Condenser Microphone - Omni-Directional - Frequency Response 100-15,000 Hz - Mini Plug - Control Box - Supplied Carrying Case and Battery - Business/Interviews/Meetings/Personal Use

## HEADPHONES

The massive array of 34 Sony headphone designs spans audiophile-quality enclosed models, lightweight open-style designs, sleek VITE (Vertical In The Ear) models and the latest generation of unobtrusive low-leakage Fontopia in-the-ear phones that can cut noise leakage by up to 70%. For Sports 'Walkman' owners, there are colour co-ordinated splash-proof designs that sound as good as they look.

### HIFI HEADPHONES

▲ **MDR P1**  
Frequency Response 20-20,000 Hz ·  
3m Cord · Stereo Unimatch Plug ·  
Weight Approx 36g (w/o cord)

▲ **MDR V1EX**  
Digital · Frequency Response  
18-20,000 Hz · 2m Cord · Gold Plated  
Stereo Unimatch Plug · Weight  
Approx 90g (w/o cord)

▲ **MDR V3**  
Designed for Studio Sound and  
Heavy Duty Use · Digital · Frequency  
Response 16-22,000 Hz · 3m OFC  
Litz Cord · Gold Plated Stereo  
Unimatch Plug · Weight Approx 150g  
(w/o cord)

▲ **MDR CD333**  
Superior Build Giving Powerful  
Dynamic Range and Comfort During  
Extensive Use · Digital · Frequency  
Response 5-26,000 Hz · 3m OFC Litz  
Cord · Gold Plated Stereo Unimatch  
Plug · Weight Approx 160g (w/o cord)

▲ **MDR R10**  
The Ultimate Headphone for  
Unequalled Sound Reproduction ·  
Housing Made From 200 Year Old  
Mature Zelkova Wood Selected  
for its Distortion-Free Sound-  
Transferability Characteristics ·  
50mm Diameter Driver Unit, Dome-  
Type Bio-Cellulose Diaphragm  
CCAW · Cord: Pure Silk Covering 6n  
Linear Crystal Oxygen Free Copper  
(99.9999%) Approx 3m · Gold-Metal  
Plated Oxygen Free, Copper Standard  
Stereo Rhodium Based Plug ·  
Impedance: 40 Ohms · Sensitivity:  
100 dB/mw · Rated Power: 300mw ·  
Power Handling Capacity: 100mw ·  
Frequency Response 20-20,000 Hz ·  
Weight Approx 400g (w/o cord)

▲ **MDR CD555**  
Dynamic Range and Comfort During  
Extensive Use · Digital · Titanium  
Plated Diaphragm for Outstanding  
Dynamic Uniformity · Frequency  
Response 5-27,000 Hz · 3m Single  
Sided LC-OFC Litz Cord · Gold Plated

Approx 210g (w/o cord)

▲ **MDR V7**  
Designed for Studio Sound and  
Heavy Duty Use · Digital · Titanium  
Plated Diaphragm for Outstanding  
Dynamic Uniformity · Frequency  
Response 5-30,000 Hz · 3m Single  
Sided LC-OFC Litz Cord · Gold Plated  
Stereo Unimatch Plug · Weight  
Approx 230g (w/o cord)

▲ **MDR CD777**  
Superior Build Giving Powerful  
Dynamic Range and Comfort During  
Extensive Use · Digital · Sapphire  
Plated Diaphragm for Superior  
Dynamic Uniformity · Frequency  
Response 5-30,000 Hz · 3m Single  
Sided LC-OFC Class 1 Litz Cord ·  
Gold Plated Stereo Unimatch Plug ·  
Weight Approx 220g (w/o cord)

▲ **MDR CD999**  
Superior Build Giving Powerful  
Dynamic Range and Comfort During  
Extensive Use · Digital · Amorphous  
Diamond Plated Diaphragm for  
Exceptional Dynamic Uniformity ·  
Frequency Response 3-30,000 Hz ·  
3m Single Sided LC-OFC Class 1 Litz  
Cord · Gold Plated Stereo Unimatch  
Plug · Weight Approx 280g (w/o cord)

### TV HEADPHONES

▲ **MDR 008TV**  
Open Style · Mono/Stereo Switch ·  
Volume Control · Frequency Response  
20-20,000 Hz · 5m Cord · Weight  
Approx 36g

▲ **MDR P1TV**  
Enclosed Style · Mono/Stereo Switch ·  
Volume Control · Frequency Response  
20-20,000 Hz · 5m Cord · Weight  
Approx 170g

## OPEN HEADPHONES

**MDR 006**  
Red and Black - Frequency Response  
20-22,000 Hz - 1.5m Cord - Stereo  
Unimatch Plug - Weight Approx 35g  
(w/o cord)

**MDR 14**  
Mega Bass - Frequency Response  
18-20,000 Hz - 2m Cord - Gold Plated  
Stereo Unimatch Plug - Weight  
Approx 43g (w/o cord)

**MDR 24**  
Mega Bass - Wide Headband for  
Comfortable Listening - Angle  
Adjustment on Ear Pads for Correct  
Positioning - Frequency Response  
16-20,000 Hz - Turbo Duct - 2m OFC  
Litz Cord - Gold Plated Stereo  
Unimatch Plug - Weight Approx 55g  
(w/o cord)

**MDR 44**  
Digital - Wide Headband for  
Comfortable Listening - Angle  
Adjustment on Ear Pads - Frequency  
Response 16-22,000 Hz - Turbo Duct -  
2m Single Sided OFC Litz Cord - Gold  
Plated Stereo Unimatch Plug - Weight  
Approx 55g (w/o cord)

**MDR 54**  
Digital - Wide Headband for  
Comfortable Listening - Angle  
Adjustment on Ear Pads for Correct  
Positioning - Frequency Response  
14-24,000 Hz - Neodymium Magnet and  
Turbo Duct - 2m Single Sided OFC  
Litz Cord - Gold Plated Stereo  
Unimatch Plug - Weight Approx 52g  
(w/o cord)

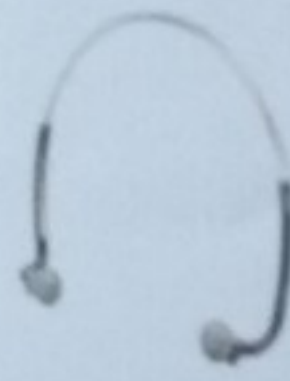

**MDR 64**  
Digital - Wide Headband for  
Comfortable Listening - Angle  
Adjustment on Ear Pads for Correct  
Positioning - Frequency Response  
12-24,000 Hz - Neodymium Magnet and  
Turbo Duct - 2m Single Sided OFC  
Litz Cord - Gold Plated Stereo  
Unimatch Plug - Weight Approx 85g  
(w/o cord)

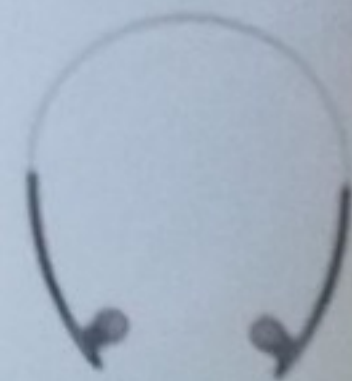

**MDR 84**  
Digital - Wide Headband for  
Comfortable Listening - Angle  
Adjustment on Ear Pads for Correct  
Positioning - Frequency Response  
10-24,000 Hz - Neodymium Magnet and  
Turbo Duct - 2m Single Sided OFC  
Litz Cord - Gold Plated Stereo  
Unimatch Plug - Weight Approx 100g  
(w/o cord)

## VITE HEADPHONES

**MDR W05EX**  
Acoustic Turbo Duct - Frequency  
Response 20-20,000 Hz - 1m Cord -  
Gold Plated Stereo Mini Plug - Weight  
Approx 12g (w/o cord)

**MDR W11EX**  
Mega Bass - Twin Acoustic Turbo Duct -  
Frequency Response 12-22,000 Hz -  
1.2m OFC Litz Cord - Gold Plated  
Stereo Mini Plug - Weight Approx 17g  
(w/o cord)

**MDR A15L**  
Acoustic Turbo Duct - Sports - Water  
Resistant - Folding Design - Frequency  
Response 18-22,000 Hz - Yellow - 1m  
OFC Litz Cord - Stereo Mini Plug -  
Weight Approx 14g (w/o cord)

**MDR A21EX**  
Digital - Sapphire Plated Diaphragm  
for Superior Dynamic Uniformity -  
Twin Acoustic Turbo Duct - Folding  
Design - Frequency Response  
10-24,000 Hz - 1.2m OFC Litz Cord -  
Gold Plated Stereo Mini Plug - Weight  
Approx 20g (w/o cord)

**MDR A21DM1**  
For D66/D99 Only - Digital - Acoustic  
Turbo Duct - Folding Design -  
Frequency Response 10-23,000 Hz -  
1.2m Litz Cord - Gold Plated Stereo  
Mini Plug and Black - Weight Approx  
12g (w/o cord)

**MDR W501L**  
Digital - Twin Acoustic Turbo Duct -  
Heavy Duty Sports - Water Resistant -  
Frequency Response 10-24,000 Hz -  
1.2m OFC Litz Cord - Gold Plated  
Stereo Mini Plug - Weight Approx 30g  
(w/o cord)

**MDR A60**  
Digital - Luigi Colani Design -  
Sapphire Plated Diaphragm for  
Superior Dynamic Uniformity -  
Frequency Response 10-23,000 Hz -  
Acoustic Turbo Duct - 1.2m LC-OFC  
Litz Cord - Gold Plated Stereo Mini  
Plug - Weight Approx 20g (w/o cord)

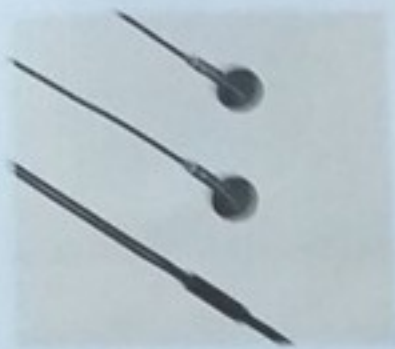

# accessories

## SONTOPIA HEADPHONES

**▲ MDR E515EX**  
New Silent Cap to Reduce Noise Leakage (70%) - Tear-Drop Shaped for Comfort During Extensive Use - Y Type Cord - Frequency Response: 18-22,000 Hz - 1m Cord - Weight: Approx. 5.5g (w/o cord)

**▲ MDR E414V**  
Acoustic Turbo Duct - Volume Control - Frequency Response: 20-20,000 Hz - 1m Cord - Stereo Mini Plug - Weight: Approx. 5.5g (w/o cord)

**▲ MDR E525**  
New Silent Cap to Reduce Noise Leakage (70%) - Tear-Drop Shaped for Comfort During Extensive Use - Mega Bass - Acoustic Turbo Duct - Y Type Cord - Frequency Response: 18-22,000 Hz - 1m Cord - Stereo Mini Plug - Weight: Approx. 5.5g (w/o cord) - Hard Compact Case

**▲ MDR E535**  
New Silent Cap to Reduce Noise Leakage (70%) - Tear-Drop Shaped for Comfort During Extensive Use - Y Type Cord - Digital - Twin Acoustic Turbo Duct - Frequency Response: 10-23,000 Hz - 1.2m OFC Cord - Gold Plated Stereo Mini Plug - Weight: Approx. 5.5g (w/o cord) - Hard Compact Case

**▲ MDR E472**  
Digital - Twin Acoustic Turbo Duct - Sapphire Plated Diaphragm for Superior Dynamic Uniformity - Frequency Response: 16-23,000 Hz - 1.2m OFC Litz Cord - Gold Plated Stereo Mini Plug - Weight: Approx. 5g (w/o cord)

**▲ MDR E225EX**  
Sports - Water Resistant - Yellow - Acoustic Turbo Duct - Frequency Response: 18-22,000 Hz - 1.2m Litz Cord - Weight: Approx. 5g (w/o cord)

**▲ MDR E575**  
Digital - Sapphire Plated Diaphragm for Superior Dynamic Uniformity - Twin Acoustic Turbo Duct - Frequency Response: 8-26,000 Hz - 1.2m LC-OFC Litz Cord - Gold Plated Stereo Mini Plug - Weight: Approx. 5g (w/o cord)

## INFRA-RED

If you are in search of true listening liberation, Sony offers a choice of cordless infra-red headphone systems that allow you to move freely around the house while still enjoying your choice of music with total privacy. The Sony infra-red portable speakers let you position your music source wherever you want without unsightly cables.

## INFRA-RED HEADPHONES

**▲ MDR IF5K**  
7m Infra-Red Range - Open Style - Left and Right Volume Controls - Transmitter - Rechargeable Battery - Gold Plated Plug - Frequency Response: 18-22,000 Hz

**▲ MDR IF510K**  
7m Infra-Red Range - Transmitter with Two Inputs - Distortion Less Than 1% at 1KHz - Open Style - Left and Right Volume Controls - Transmitter - Frequency Response: 18-22,000 Hz - 2 'AA' Batteries or NC6WM Rechargeables

## INFRA-RED SPEAKERS

**▲ IFS 20K**  
Infra-Red Portable Speakers - Frequency Response: 200-20,000 Hz - 1.2W + 1.2W (Built-in Amp) - Volume Controls - Bass Reflex - Auto-Off Power Circuit - Low Energy Consumption - Creating Longer Battery Life - (Approximately 135 Hours at 60 dB SPL @ 50cm) - Weight: Approx. 470g Each - Free Standing or Clamp Type - Transmitter with Two Inputs

**▲ IFS 50K**  
Infra-Red Cordless Portable Speakers - 5W + 5W - Frequency Response: 100-20,000 Hz - Magnetically Shielded - Volume Controls - Bass Reflex - Auto-Off Power Circuit - Low Energy Consumption - Creating Longer Battery Life (Approximately 350 Hours at 60 dB SPL @ 50cm) - Weight: Approx. 1.4kg Each - Free Standing - Transmitter with Two Inputs

## SPEAKERS

No less than six active speaker systems can be added to your 'Walkman' or 'Discman' for those occasions when you don't want your personal stereo to be quite so personal. There's even a colour co-ordinated model to match your Sports 'Walkman'.

**SRS 27**  
For 'Walkman' Active - 0.4W + 0.4W - Bass Reflex System - On/Off Switch - Weight approx 150g each

**SRS 37**  
For 'Walkman'/'Discman' - Active - 1.2W + 1.2W - Bass Reflex System - On/Off Switch - Volume Control - AC Optional - Weight Approx 330g

**SRS 5**  
For 'Walkman' - Weight Approx 90g each

**SRS 17**  
For 'Walkman' Active - 0.2W + 0.2W - Weight approx 285g each

**SRS 47G**  
For 'Walkman'/'Discman' - Active Speakers - 0.4W + 0.4W - On/Off Switch - Water Resistant - Yellow - Cube Design for Sports/Outdoor Use - Weight Approx 440g

**SRS 57**  
For 'Walkman'/'Discman' - Active - 3.0W + 3.0W - Bass Reflex System - Volume Control - On/Off Switch - Magnetically Shielded - Supplied AC Adaptor - Weight Approx 560g Each

**SRS 67**  
For 'Walkman'/'Discman' - Active - 5.0W + 5.0W - Bass Reflex System - Volume Control - On/Off Switch - Supplied AC Adaptor - Weight Approx 900g Each

**SRS D3K**  
Active 3D Speaker System for 'Discman' - Bass Reflex Woofer and Full Range Speakers - Built-in Amplifier Power Output 25W - Gold-Plated Input Plug - Magnetically Shielded - Main Level Control - Woofer Level Control - Balance Control - Built-in Mains - Size: Main 150mm x 435mm x 266mm (W x H x D) - Sub 88mm x 90mm x 95mm (W x H x D) - Weight: Main 5kg - Sub 470g/Piece

**SRS 170**  
Compact Active Speakers for CD and DAT - Frequency Range 45-20,000 Hz - Wooden Cabinet and Soft Styling with Built-in Amplifier - Bass Reflex - Total Output 66W - Power Switch/Built-In Mains - Volume and Bass Control - Input Selector Switch (Direct/Phones) - Magnetically Shielded - Weight Approx 3.1kg Each - Gold Plated Mini Plug and Adaptor

## MICROPHONES

Sony microphone technology is renowned amongst audio professionals the world over, and there's a Sony microphone for every application - from sturdy, lightweight, handheld models to high-quality stereo units and discreet tie-clip designs.

**FVS 3**  
Dynamic - Omni-Directional - Frequency Response 100-10,000 Hz - Unimatch Plug - Weight Approx 8.2g - For Singing/Keyboards

**FVS 7**  
Dynamic - Cardioid Directivity - Frequency Response 60-12,000 Hz - Unimatch Plug - Weight Approx 130g - For Singing/Keyboards

**FVX 50**  
Dynamic - Cardioid Directivity - Frequency Response 80-15,000 Hz - Weight Approx 225g - Stand Adaptor Supplied - For Singing/Keyboards/ Public Address

**FVX 30**  
Dynamic - Cardioid Directivity - Frequency Response 80-12,000 Hz - Gold Plated Unimatch Plug - Weight Approx 220g - Stand Adaptor Supplied - For Singing/Keyboards/ Public Address

**F99 LT**  
High Quality Stereo - Dynamic - Uni-Directional x 2 (Stereo Separation) - Stereo/Mono Capability (Mono Unimatch Plugs Supplied) - Independent Shielding Left and Right (No Cross Talk) - Frequency Response 80-12,000 Hz - 3m Cable - Weight Approx 150g - For Singing/ Keyboards/Public Address

### ECM 737

High Quality Stereo Microphone for DAT Sound Quality - Directional Switch - Mid-Side Stereo System Ensures Natural Panoramic Recordings and Reduces Reflected Sound - Frequency Response 80 - 15,000 Hz - Directive Angle Switch 90 dgs/120 dgs - OFC Cord - Gold Plated Stereo Mini Plug - Supplied Windscreen/Stand/Adaptor and Battery

# BP 700

Rechargeable battery for WM-352, WM-375, WM-3F49 (approximately two hours playing)

# RMD M5K

Infra-red remote commander for Discman - Direct track selectors - On/off/pause/search controls

# BP 23

Rechargeable Battery Pack - Suitable for Models using 4 'AA' size batteries - 5 Hours Recharging Time - (approximately two hours playing)

# RMD M2

Wired Remote Commander for Discman - Remote On/Off Switch/ Pause/Stop/AMS

# NC 6WM

Rechargeable battery for WM-EX49, WM-2191, WM-EX50, WM-290, WM-EX70, WM-702, WM-EX80, WM-324, WM-3F605, WM-F2097, WM-EX71 (approximately two hours playing)

# CPA 2

Car Stereo Connecting Cassette for Discman

# BP 2EX

Rechargeable Battery Pack for Discman - Suitable for D150, D250, D90, D800, D-2555 - 3 Hour Charging Time - (approximately two hours playing)

# CPM 203 PK

Car Mounting Arm for Discman - Shock Absorbing Mounting Plate with Flexible Arm and supplied Car Battery Cord - Easy to install

# BP 5

Rechargeable battery for D-350 Discman (approximately two hours playing)

# MAINS ADAPTORS

Mains adapter for powering portable units with 'DC In' socket. Various models available

# BPC 700K

Rechargeable Battery/Charger Kit for Walkman - 8 Hour Charging Time - 2 Hour Playing Time (approx) - Note: See 'Walkman' instruction manual for compatibility

# CAR BATTERY CORD

Cigarette lighter connection cord for powering portable units with 'DC In' socket. Various models available
